

Check Printing and Processing Solutions - Fast, Efficient, and Affordable Solutions from Relyco

In addition to a full portfolio of secure, premium laser checks, Relyco offers a complete turnkey, efficient and cost-effective in-house check printing solution for bank-compliant checks and other secure financial documents. As a member of the American National Standards Institute (ANSI) ASC X9AB check processing committee, Relyco is an innovative leader in fraud prevention strategies and new forms technologies.

Relyco's turnkey laser check printing solutions combines its leading check stock with software, MICR printers, MICR toner, and check signing solutions for organizations of all sizes.

Laser Check Printing Software

Enhance your off-the-shelf accounting package with MICR check printing software from Relyco and TROY. Laser check printing software enables you to quickly and affordably create and print fully formatted checks with signatures and MICR lines included.

- Eliminate the expense of using pre-printed checks; print checks securely and on-demand
- Prevent unauthorized use of the system with built-in security access features
- Easy-to-use, Windows-based software packages are compatible with most accounting packages

Relyco FlexChek

Compatible with any accounting package, including QuickBooks and Peachtree, FlexChek will secure and simplify your business check printing process. FlexChek can manage an unlimited number of bank accounts or companies and offers the flexibility of printing checks in a single pass or separately to capture unique MICR lines, logos and signatures.

TROY Check Writing Software

TROY Check Writing Software is a Windows-based application with an easy-to-use interface that works with even the most sophisticated accounting systems to allow secure, flexible, cost-effective, on-demand check printing.

MICR Laser Printers

Using MICR technology, Relyco MICR laser printers and toner ensure consistent and efficient check printing that meets ANSI standards. Organizations rely on MICR technology for high-quality, high-performance, and cost-effective check and financial document printing.

Relyco is proud to offer the industry's most affordable MICR laser and multifunction printers powered by Samsung, as well as high-quality MICR laser printers from leading vendors such as TROY, Source Technologies, Rosetta Technologies, and ACOM Solutions. For added security, Relyco also offers MICR printers with locking trays.

Relyco MICR Printers Powered by Samsung

Through our exclusive partnership with Samsung, Relyco offers a complete line of MICR printers backed by the high quality, reliability and performance of Samsung. From desktop to multifunction, Relyco MICR printers powered by Samsung make in-house check printing simple and affordable for organizations of any size.

ACOM Solutions MICR Printers

The ACOM line contains two laser MICR printer models that vary based on duty cycle and speed. One at 30,000 pages per month with a speed of 30ppm, the other capable of printing up to 200,000 pages per month at 45ppm.

Rosetta Technologies MICR Printers

For the low volume user, Rosetta offers a low cost MICR printer. The SP 3300 laser MICR printer outputs up to 30 laser checks per minute.

Source Technologies MICR Printers

With speeds ranging from 30 to 50 pages per minute, the Source Technologies MICR printers are ideal for workgroup MICR check printing applications.

TROY MICR Printers

Based on Hewlett Packard LaserJet Printers, TROY MICR Printers offers three levels of high-quality MICR check printing with speeds ranging 35ppm to 62ppm.

MICR Toner

Relyco MICR toner is an essential component of our MICR check printing solution. Specifically formulated with magnetic iron oxide to meet ANSI guidelines, Relyco MICR toner provides the signal strength and optical density requirements necessary to assure readability among U.S. Bank processing systems. Relyco offers MICR toner cartridges compatible with MICR printers from many leading vendors, including TROY, HP, IBM, ACOM, Xerox, Lexmark, Rosetta, and Source Technologies.

Check Signing Solutions

Relyco offers both hardware and software check signing solutions to meet any check signing requirements. Check signing solutions from Relyco enable you to sign or endorse checks automatically and securely. Depending upon your need, you can choose between the hardware-based Formax Check Signer or the software-based Relyco FlexChek Check Signing Software

Relyco FlexChek Check Signing Software

FlexChek Check Signing Software works seamlessly with virtually any accounting software package. As you print checks, simply choose the FlexChek Check Signing Software print driver rather than your laser printer. FlexChek will automatically and securely apply the signature(s) and the checks are completely printed and signed in one pass.

Formax FD 150 Cut-Sheet Check Signer

The Formax FD150 Cut-Sheet Check Signer provides automatic alignment to assure precise imprint locations and offers a bottom-feed system that ensures proper document sequencing and allows for continuous operation.

Relyco Quality

Relyco technical consultants are available to assist you with any product or technical questions. Relyco guarantees its products and offers additional printer warranties. Relyco is the company you can rely on.

About Relyco: For more than 25 years Relyco has been the premier supplier of unique and innovative paper products specifically designed for laser, digital and inkjet printers.
