

ULTRASEAL® *Pressure Seal Custom Tax Forms*

The Efficient and Secure Way to Process Business Tax Forms

Take the Pressure Off of Tax Season

Tax time is only once per year, but processing W-2's or 1099's can be a time consuming endeavor. ULTRASEAL pressure seal tax forms offer a fast and cost effective alternative to folding and inserting standard tax forms into envelopes. Versatile and easy-to-use, Relyco carries a complete line of blank and pre-printed pressure seal tax forms, as well as the equipment used to seal them. With 13 different security features available, you can be sure that highly confidential tax information is secure.

Relyco has ULTRASEAL pressure seal layouts for all business tax form layouts:

- **W-2 Forms:** Available as an 11" V-fold and 14" EZ-fold (Eccentric "Z" fold) with printed and blank formats, all are approved and patented formats with the most secure glue patterns available.
- **1099 MISC & 1099R Forms:** A complete line of 1099 MISC and 1099R forms are available as an 11" V-fold and 14" EZ-fold (Eccentric "Z"-fold) with printed and blank formats. In addition, pressure seal 1099 MISC and 1042S format is available.
- **1099, 1098, & 5498 Forms:** The most complete line of pressure seal 1099, 1098, and 5498 forms available. All formats are available as cut sheet lasers and the most popular 1099's. The 1099 INT, 1099 MISC, 1099 DIV, 1098, and 5498 are also available as continuous lasers.

Benefits

- Immediate material cost savings by eliminating unbalanced inventories and envelopes
- Reduced processing time and labor costs by eliminating hand-folding and envelope stuffing
- Environmentally-friendly process makes pressure seal the "green" alternative for office mailings
- Greater accuracy and fewer errors with improved efficiencies and streamlined processing
- Enhanced security is ideal for confidential tax information

The Efficient Way to Deliver Tax Forms

Taxes are painful, but processing tax forms doesn't have to be. Unlike other types of mailers that require glue, heat, or water to seal them, our printer-compatible ULTRASEAL pressure seal tax forms have narrow bands of pressure-sensitive adhesive. Once you print the pressure seal mailing piece in your color or black and white laser printer, the forms can then be fed into any one of the Formax™ pressure seal machines available from Relyco. These machines take care of all the folding and sealing, utilizing pressure that activates the special paper coating. The machine completely seals the edges of the piece to create a secure, ready-for-mail document that delivers peace of mind.

The process is faster and cleaner than any other self mailing product on the market, making it the most cost and environmentally efficient way to create, process, and deliver mailed pieces without an envelope. By eliminating the printed envelope from the process, ULTRASEAL has become the more efficient and "green" alternative when doing business mailings.

ULTRASEAL pressure seal saves time, effort, and money during tax season
