

Print it, peel it, show it and watch the fun!

Children, teammates, friends – even products - can all be immortalized with their very own professional looking trading card. DigiCard™ is Relyco's new line of digital trading cards that work in almost any laser printer.

Stars – Stats & Memories that Last Forever

Make sure your team players get the attention and respect they deserve with their very own trading card!

DigiCard™ is an 8.5" x 11" blank white sheet, pre-kiss-cut with four adhesive-backed panels that provide two trading cards per sheet. Design your DigiCard™ for both front and back and then simply peel it, fold it and pop out your own very unique trading card. It's that simple!

Hundreds of Uses

Sports teams – Clubs – Member Rosters – Products – Menu Items – Real Estate Listings – Auto Dealerships – Game Cards – You name it!
