

Features and Benefits

- **Durable, tear resistant and waterproof**
 - Withstands rain, heat and temperature variations; deters grease, solvent and chemicals; will not tear or fade
- **Superior laser image quality**
 - The appearance, smoothness and printability of standard paper
- **Cost-effective**
 - Long-lasting materials save on replacement costs and more affordable —and faster— than lamination

Valuable for thousands of applications in a range of industries —including hospitality, retail, education, manufacturing, healthcare and government.

About Relyco

Relyco is the leading provider of business forms, laser & digital print solutions, checks, and pressure seal checks & forms. Understanding and meeting our clients' needs is always our first priority. www.relyco.com.

The world's most popular and "virtually indestructible" laser paper is now available in roll format!

REVLAR-On-A-Roll (R.O.A.R) is the perfect solution for wide format printers, plotters, engineering and CAD drawings but also great for waterproof labels, grocery store shelf strips, backlit signage, light boxes, banners and more. R.O.A.R opens up thousands of applications limited only by your imagination!

Digital Toner & Inkjet

R.O.A.R is available for today's most demanding applications and comes available for digital toner machines as well as inkjet equipment.

Waterproof and weatherproof R.O.A.R offers the image quality and printability of standard paper and can be folded, punched or die cut as needed, making it valuable for thousands of applications across all industries — not only for CAD/ Cam, Electrical and Civil Engineering as well as architectural applications but also hospitality, retail, education, healthcare and government.

Product No.	Description	L (ft)	CORE (in)	Roll Width (in)				
				24	30	36	42	54
504-24X150-39141 (24in) 504-30X150-39141 (30in) 504-36X150-39141 (36in) 504-42X150-39141 (42in) 504-54X150-39141 (54in)	Double Matte Quick-Dry Eraseable INKJET FILM (4 mil)	125	2"	✓	✓	✓	✓	✓
503-24X150-39131 (24in) 503-36X150-39131 (36in)	Double Matte Quick-Dry Eraseable INKJET FILM (3 mil)	125	2"	✓		✓		

Mill Rolls

REVLAR is also available in Mill Rolls — sized and spliced to your exact specifications

— call us for more information —

Recycling

REVLAR has special aqueous surface coatings designed to optimize print performance, which make it a Number 7, or Miscellaneous Plastic. The acceptance of this type of plastic for recycling varies, so it is important to check local authority guidelines. When recycled, number 7 plastics are typically used in "lumber" and custom-made materials.

REVLAR can be incinerated safely as a potential source of energy, but should be incinerated according to local regulations. As an inert material, REVLAR can also be buried in approved landfill facilities.

REVLAR is also available in sheets for laser printers – ask us about it!
