

Standard, custom or integrated labels for your unique application requirements

Choose the type of Relyco laser label that meets your specific requirements.

Stock labels

Stock labels include formats from 1-up to 80-up with a range of layouts in between. Relyco offers thousands of stock labels, including laser compatible sheets, Thermal Transfer labels and Direct Thermal labels.

Custom labels

Custom labels can be formatted to your exact specifications. Available in sheet, roll, single or pin-feed formats, custom labels can be printed in up to ten colors, including four-color process, with UV varnishing and laminating added if needed. Special adhesives are also available.

Integrated labels

Integrated labels combine multiple processes or functions in a single easy-to-use form or customized labels to address complex application requirements.

Ideal in a range of industries, including manufacturing, healthcare and retail, Relyco's integrated labels can be used for applications such as picking, packing, shipping, inventory, invoicing and production. Combine pick tickets with address labels, medical forms with pharmacy labels, or shipping labels with return-address labels to increase efficiency and improve work flow.

Choose from custom, laser-compatible cut sheet or continuous formats, or single or multiple-part continuous or unit set options. With the industry's largest integrated label production capacity, Relyco offers one-step production for large, laser-compatible cut sheet orders. Most sizes are available, including 3.5", 4", 4.5", 5", 6", 7", 8", 9", 10", 12", and 14".

For smaller orders, stock integrated form/labels are available

Features and Benefits
