

Efficient Self Mailers Customized to Meet Your Unique Business Needs

The Efficient Way to Get Noticed

Relyco can create totally customized ULTRASEAL self mailers that meet the needs of any organization. Whether it's to incorporate and highlight your organization's brand, distinguish yourself with full color, or to create a specific design to meet a work flow requirement, Relyco can help you maximize the advantages and efficiency gained by ULTRASEAL.

Designed to meet your specific requirements, ULTRASEAL custom self mailers from Relyco get opened, reduce processing times, and eliminate the need for envelopes. Pressure seal custom self mailers are the cost-effective and environmentally efficient way to create, process, and deliver mailed pieces – your way.

What Is Pressure Seal?

Unlike other types of mailers that require glue, heat, or water to seal them, our printer-compatible ULTRASEAL self mailers have narrow bands of pressure-sensitive adhesive. Once you print the pressure seal mailing piece in your color or black and white laser printer, the forms can then be fed into any one of the Formax™ pressure seal machines available from Relyco. These machines take care of all the folding and sealing, utilizing pressure that activates the special paper coating. The machine completely seals the edges of the piece to creating a ready-for-mail document – no water, glue, heat, or enveloped needed!

Benefits

- Specifically designed to meet your exact specifications, custom self mailers allow you to distinguish your business
- Immediate material cost savings by eliminating unbalanced inventories and envelopes
- Reduced processing time and labor costs by eliminating hand-folding and envelope stuffing
- Environmentally-friendly process makes pressure seal the “green” alternative for office mailings
- Greater accuracy and fewer errors with improved efficiencies and streamlined processing
- Custom features allow for enhanced security which is ideal for sensitive documents

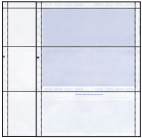

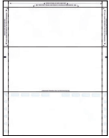

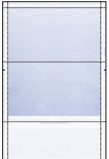

By eliminating the printed envelope from the process, pressure seal has become the more efficient and “green” alternative when doing office mailings and by eliminating labor intensive activities like folding, stuffing, and sealing, our pressure seal solutions can reduce your overall mail processing costs by nearly 50% - leaving you with time to focus on revenue-generating projects.

Customized For Your Business Needs

Our customized solutions allow you to take advantage of all the benefits of pressure seal while creating a self mailer that is tailored to your unique business requirements. Go ahead – let your imagination run wild. Relyco offers the largest selection of stock items in a variety of different colors, sizes, and formats which can be custom printed with your logo, address, and any other information you want. If we do not carry a stock product that meets your needs, we will work with you to design and produce a custom product that does.

All of our self mailers can be custom printed in today's office laser printer, complete with postage, allowing for control of costs, customization, and either bulk or one-off delivery of mailed pieces when necessary. With Relyco, getting creative does not mean you need to give up security. Our ULTRASEAL self mailers offer 17 different custom security features to protect any business type, ensuring that your highly sensitive information is ultra secure.
