“The Best Performing Label Material for Memjet® and other Inkjet Printers”

Relyco has done it again with the introduction of the new ENDURA LABEL for Memjet® and other inkjet printers. Available in many durable and utilitarian stocks of matte and gloss, poly, vinyl, PET films and paper materials, ENDURA LABEL offers exceptional image integrity that truly “POPs” out with vibrant colors when used on Memjet® and other inkjet presses.

See the difference!

Standard Inkjet Printer Label

Relyco's ENDURA LABEL for Memjet®

Take Advantage of Memjet® Full Bleed Quality!

The ENDURA LABELS™ for Memjet® and other inkjet printers take advantage of the print engine's full-bleed technology while offering specific coatings, finishes and precise construction for fast, exacting use on all Memjet®-engine based printers, including those from Afinia, Astro Machine Corporation, Colordyne Technologies LLC, Delphax Technologies Inc., Formax, iJetColor Presses, iSys, Lomond, Océ, OWN-X KFT, Rapid Label Systems, Super Web Digital, Trojanlabel, Xanté Corporation and others.

Thousands of Sizes and Shapes – or Customize to Meet Your Needs!

Relyco's ENDURA LABELS™ for Memjet® and other inkjet printers come in thousands of shapes and sizes – we have a die for nearly every need – and if necessary, we'll customize one for your specific application. A wide and flexible variety of roll sizes and cores are available to fit nearly every inkjet printer.

The **ENDURA LABELS™** for **Memjet®** and other inkjet printers come in matte, bright/white, clear, gloss, vinyl top coated, PET film and other coatings, finishes and synthetics – many come with a universal waterfast inkjet coating. Listed are just some of the stock materials available:
