

## Premium Laser Checks Featuring 11 Security Features and Enhanced Toner Adhesion

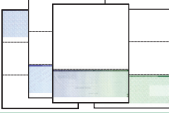

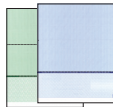

National Standards for Canadian Cheque Stock are quite different than the check standards in the US. All companies who wish to do their banking in Canada, whether Canadian or American, should use CPA (Canadian Payments Association) approved cheque stock to avoid delays in the routing and processing of their cheques. With this in mind, we offer a variety of cut sheet and pressure seal cheque layouts, all designed to comply with Canadian standards.

**MAGNACHEQUE™**  
**BASICHEK®**  
**ULTRASEAL®**
