

**REVLAR Waterproof Menus** are durable, weatherproof, chemical-resistant, washable and tear-proof. These menus can withstand spills, stains and the frequent and rough handling in any restaurant environment, which is where paper menus fail.

**Perfect anytime for harsh and outdoor environments!**

*Back away from the laminator*

Waterproof menus are designed to replace the tedious and costly process of laminating paper. Many restaurants choose to laminate in an effort to extend the life of a menu. But lamination is not only an expensive process, it is also susceptible to cracking, peeling and puncturing. Ultimately, it produces a finished piece that is not aesthetically pleasing over the long-term.

*Easy printing & cleaning*

REVLAR Waterproof Menus can be used in dry toner laser printers, offset printers or flexo printers. These menus offer the same image quality of standard printer paper, allowing them to shine with stunning designs and eye-catching colors.

These menus are easily cleanable, which makes it possible to sanitize them. A wet cloth or mild cleanser should do the trick, but if you choose to use a more harsh cleanser, we recommend UV coating to extend the life of the toner on the synthetic material.
