

PRODUCT CATALOG

Products that perform,
people you can **trust.**

We're a supplier of unique print products that are designed for thousands of uses. We'll help you get the most value out of your printer investment.

RELYCO[®]
WILDLY RELIABLE

Our mission

To connect businesses with the solutions they need to communicate their message – with innovative products, wildly reliable people and creative problem solving.

Our vision

To stand out as a trusted partner for our customers, employees and community, while reducing our environmental impact on the planet.

Delivering on the promise to be “wildly reliable” in service to our clients

RELYCO means “the company you can rely on.”
We define reliability in two ways:

- Products that perform
- People you can trust

98% or greater quality performance rate

A focus on continuously minimizing our impact on the environment

Add sustainable alternative products to the REVLAR product line by 2030

Implement a responsible sourcing policy

Continue green initiatives at our company headquarters

Expanding our commitment to giving back to our community

Donate 1% of all online sales to charity

Employee-led Charity Committee

Payroll charitable giving program

Fostering an environment where multidimensional health thrives

Safety-first work environment

Living wage or greater for all employees

Mind/body literature and company-wide movement activities provided to encourage healthy living

Hand foldable & writable

REVLAR Soft is made from polyolefin, which is a unique plastic material that is just as durable as polyester and other plastics, but is more foldable and writable. This material is primarily compatible with production printers because of polyolefin's lower melting point.

How can REVLAR Soft be used?

What can you make with it?

- Folded menus
- Event passes
- Loyalty / reward cards
- Bookmarks
- Signage / posters / notices
- Keg collars / growler tags
- Parking tickets / passes
- Manuals / guides / logs / forms

TRIDURA is the same as PaperTyger® – it is a hybrid between traditional paper and synthetic paper.

a synthetic with the look & feel of paper

Synthetic core

TRIDURA has a polymer film core sandwiched between layers of paper. With its unique construction of paper/polymer/paper, TRIDURA combines the image quality, foldability and printability of standard paper with unmatched durability and resilience.

Durability

The synthetic core means that TRIDURA is tear-resistant and tough. It is perfect when you want a durable paper, but don't need all of the other characteristics of a full synthetic paper.

How can TRIDURA be used?

What can you make with it?

- Take-out menus
- Placemats
- Event / parking passes
- Manuals
- Medical charts
- Trail maps / city guides
- Point-of-purchase displays
- Permits / certificates
- Golf score cards
- Postcards

Pro Tip

We recommend that you store open reams of ENDURA labels in large airtight (zipped) plastic bags at room temperature.

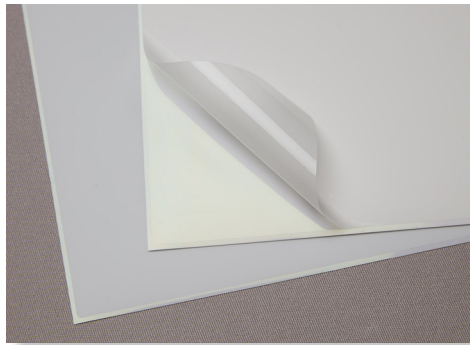

REVLAR SYNTHETIC LABELS

REVLAR synthetic labels are available in either removable or permanent versions. They can be used outside or inside for almost any application.

durable labels
designed to last

Features & options

Like REVLAR Synthetic Paper, REVLAR Synthetic Labels are waterproof, tear-proof and designed to withstand the toughest weather / environmental conditions.

Synthetic labels

Removable labels: low tack allows ongoing repositionability and ultra-removability

Permanent labels: long-lasting adhesive to guarantee your label will stay in place

Marine & laboratory grade labels: designed to withstand wash-downs as well as total seawater immersion, certified for British Maritime Standard 5609:1986 Section 2 and 3

How can Synthetic Labels used?

INTEGRATED LABEL FORMS

Simplify and streamline any packing, shipping, inventory, invoicing and logistics documentation process.

simplify & streamline your workflows

Features & options

Integrated label forms serve as a way to merge information, instructions and labels all on one sheet. By consolidating multiple sheets into one, you're reducing your environmental impact, time spent printing and the chance for human error.

Stock option variables

- Placement of label
- Perforations
- Size of label

ULTRASEAL PRESSURE SEAL FORMS

A cost-effective, labor-reducing and environmentally-friendly way to create, process and deliver mailed pieces without an envelope or glue. Free design templates are available.

ditch the envelope,
boost your security

Features & options

ULTRASEAL forms are created from a single sheet of paper. No hand-folding, envelope stuffing, gluing or heating is required. They pair perfectly with Formax pressure seal equipment.

Security

ULTRASEAL forms are tamper-evident, which makes them the perfect solution when you want to be sure that the end recipient is the only person opening the mailer. Each form contains special bands of printer-safe pressure-sensitive adhesive near the edges. Those bands align and bond together to form a secure seal.

How can ULTRASEAL forms be used?

What can you make with it?

- Invoices
- Business checks
- Utility bills
- Medical bills
- Business tax forms
- Statements
- Grade reports
- Test results
- Medical reports
- Collection notices
- PIN notifications
- Bank documents

Sizes: 8.5" x 11", 8.5" x 14"

Formax is a leader in the design and manufacturing of paper processing equipment.

use with our pressure seal forms & checks

Features & options

When pressure seal machines are used with printed ULTRASEAL forms & self-mailers, you eliminate the need for envelopes. This enables you to reduce processing time, boost productivity and save money.

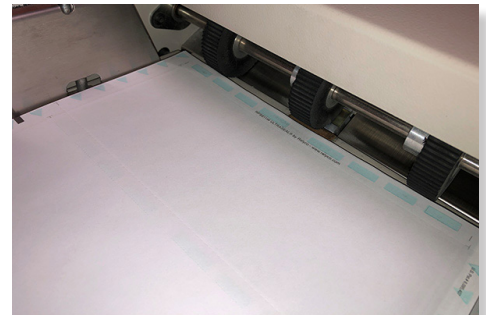

Formax pressure sealers

We offer Formax pressure seal equipment in a range of options – from tabletop to industrial-sized units.

Saving time & money

Pressure sealers enable you to process 10 times more pieces per hour than folder-inserters and as much as 60 times more per hour than what you can process by hand. We're talking speeds of up to 40,000 forms per hour.

WIDE FORMAT

We partner with Sihl, a leading manufacturer of digital print media, to offer the best rolls for your wide format print jobs.

for an endless variety of printing projects

Features & options

Wide format printing is used for an endless variety of printing projects, such as large format artwork, signage, displays, banners, roll-ups, art reproduction, CAD and office printing.

AQUEOUS

SOLVENT

LATEX

UV

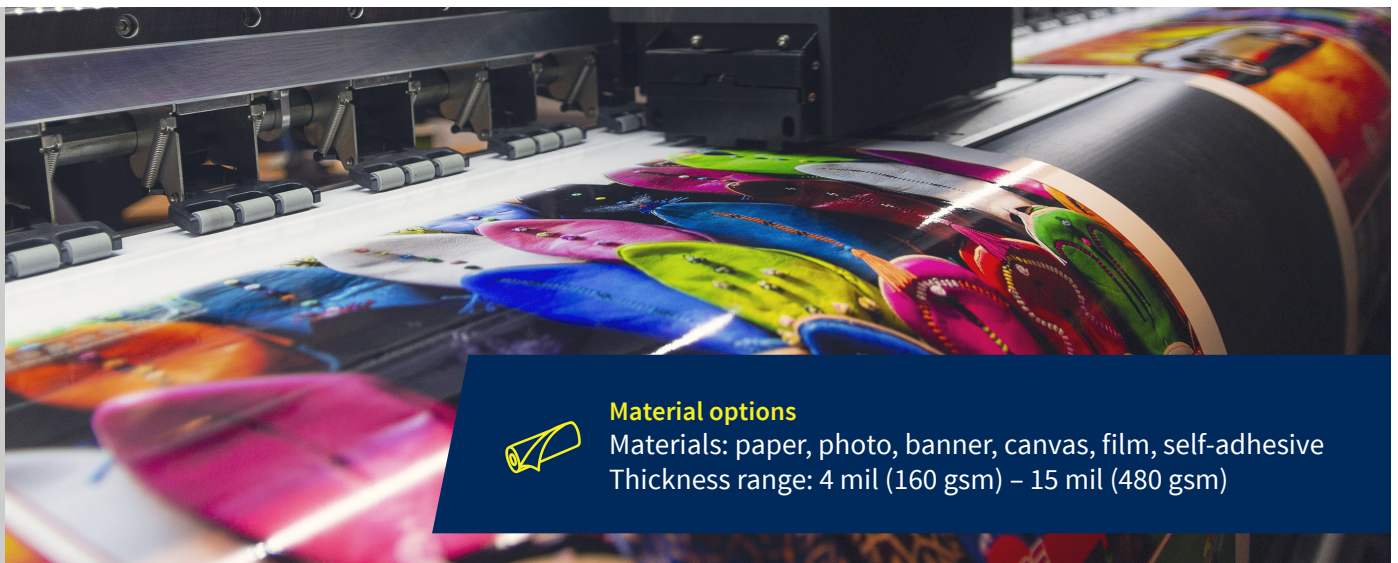

Wide format ink types

There are four main ink types for wide format: aqueous, latex, UV and solvent. Wide format inkjet printers produce vibrant colors with great detail, and the size limit is only constrained by the printer's width.

How can Wide Format Rolls be used?

What can you make with it?

- Large format artwork
- Signage
- Displays
- Banners
- Roll-ups
- Art reproduction
- CAD
- Office printing

Material options

Materials: paper, photo, banner, canvas, film, self-adhesive
Thickness range: 4 mil (160 gsm) – 15 mil (480 gsm)

METALLICS

Our metallic boards offer eye-catching and luxurious shine for your next promotional piece, poster or packaging.

eye-catching & luxurious shine

Ultrasilver and Ultragold

These two-sided sheets are available in a shimmery silver or bold gold color. Choose between cardstock and paper weight. We offer a 13" x 19" parent size in either 12 mil (360 gsm) or 4 mil (125 gsm).

MetaliK

This one-sided board has a metallic polyester face, which results in a high sheen with added durability. MetaliK comes in silver or gold on a standard 12" x 18" size, 14 mil (330 gsm).

How can METALLICS be used?

What can you make with it?

- Posters / signage
- Product packaging
- Flyers / brochures
- Event programs
- Greeting cards
- Postcards
- Retail tags
- Event tickets

LASER

Pro tip

If your printer supports white toner, we highly recommend that you use it on metallics. It will create an extra color punch.

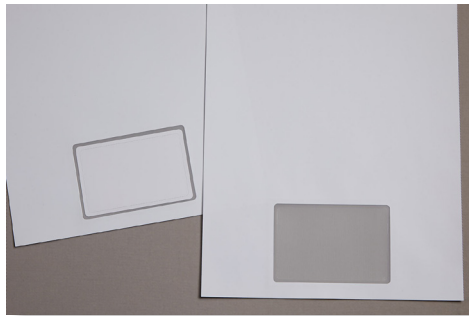

EZ-CARDS

EZ-Cards are designed to be easy to set up with our free design templates and printed with your printer.

easily distribute ID or membership cards

Features & options

They come on an 8.5" x 11" piece of paper or "carrier sheet," which allows you to include text and images. The carrier sheet is perforated or die-cut around the card. It is a "punch out" style: the user pushes the card through the sheet instead of lifting it off.

Material options

- Paper with a laminate back (EZ-Card PromoCard)
- Tri-blend of polyester / paper / polyester (EZ-Card EconoCard)
- Waterproof polyester (EZ-Card Poly)

How can EZ-Cards be used?

What can you make with it?

- ID cards
- Loyalty cards
- Membership cards
- Rewards cards
- Temporary IDs
- Coupons

Card options

Options for 1 or 2 cards per sheet
Cards come in 7 mil, 9 mil, 10 mil or 13 mil

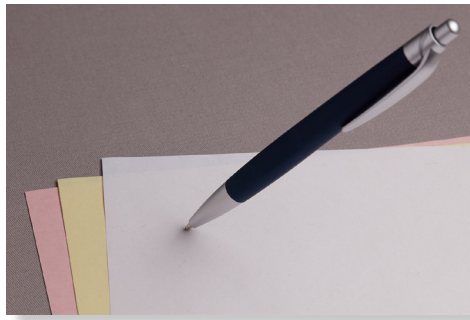

REIMAGE CARBONLESS FORMS

REIMAGE carbonless laser paper is a cost-effective, environmentally-friendly solution that enables you to create and print multi-part business forms.

create & print multi part business forms

Reduce waste, print forms on-demand

REIMAGE streamlines your process by giving you the ability to customize and print only the forms you need, when you need them. No more buying pre-printed forms in bulk and tossing them out when they are obsolete.

How does REIMAGE work?

Each sheet of REIMAGE has a chemical coating. These chemicals are held in tiny capsules, which are released when pressure from a pen bursts them. This allows for the transfer of writing through carbonless sheets.

How can REIMAGE be used?

What can you make with it?

- Multi-part forms
- Bills of lading
- Packing lists
- Purchase orders
- Inventory
- Contracts
- Invoices / statements
- Pick tickets
- Receipts
- Quotes
- Applications

BUSINESS CHECKS

Even the most secure check printing system is vulnerable to fraud without the right check stock. We offer a full portfolio of secure business checks in over 50 layouts. Our stock check and custom check products are kept up-to-date with all ASC X9AB Check Processing approved standards.

BASICHEK

Includes 15 security features. Available in three colors with four layouts with top or bottom check placement.

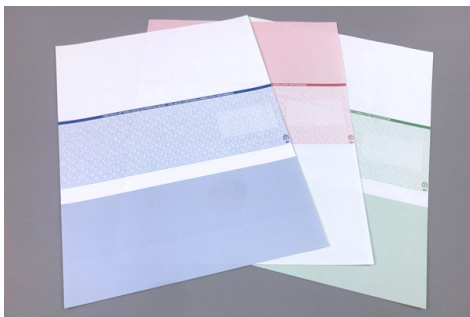

DETERACHEK

Includes 17 security features. The most comprehensive array of check security features available on the market. Available in a two-color blend in four layouts with top or bottom check placement.

FUTURACHEK

Includes 15 security features. Available in two color formats with two layouts and bottom check placement.

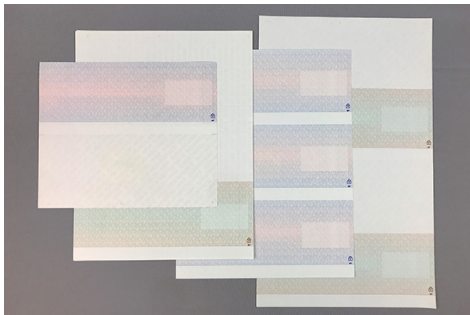

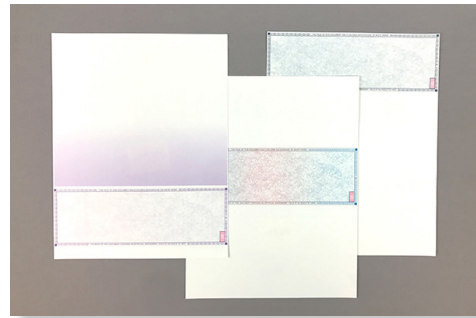

MAGNACHEK

Includes 15 security features. Offers a unique 3 ½" check size. Available in three colors in four layouts with top, middle or bottom check placement.

BUSINESS CHECKS

Piracle Checks

Includes 10 security features. Offers a unique 3 ½" check size and standard 3 ⅔". Available in eight colors and many layouts with top, middle or bottom check placement. Sheets come in 8.5" x 11" or 8.5" x 14". Includes pressure seal and non-pressure seal checks. Options for 1, 2 or 3 checks per page.

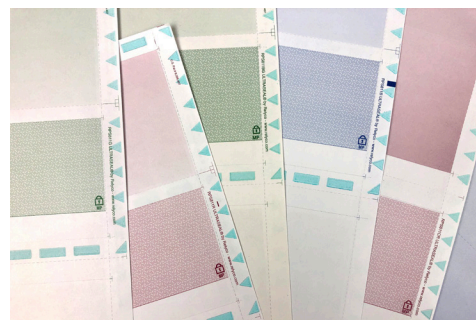

ULTRACHEK

Includes 12 security features. Our lowest-priced, "entry-level" check that still exceeds recommended banking standards for security and due diligence. Check sizes: 3 ⅔", 3 ½" or 2 ¾". Available in two color formats, checks on top, middle and bottom, in twelve different layouts. Sheets come in 8.5" x 7", 8.5" x 11" or 8.5" x 14". Options for 1, 2, 3 or 4 checks per page.

ULTRASEAL Pressure Seal Checks

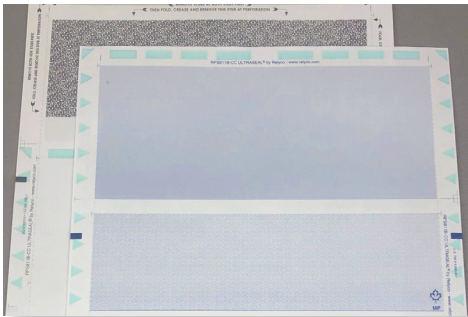

Improve efficiency and increase the security of sensitive information by eliminating the envelope. Our unique one-piece design offers up to 14 security features and any attempt at tampering will result in a damaged check. Available in a variety of colors, sizes and formats. Pair ULTRASEAL checks with our Formax pressure seal machines.

BUSINESS CHECKS

Canadian Cheques

All companies who wish to do their banking in Canada, whether Canadian or American, should use Payments Canada approved cheque stock to avoid delays. We offer a variety of cut sheet and custom layouts with up to 11 different security features.

Canadian ULTRASEAL Cheque

Designed to comply with the Canadian cheque standards issued by Payments Canada. ULTRASEAL cheques are created from a single sheet of paper. Use them to create, process and deliver cheques without an envelope or glue.

Substitute Checks – IRDs

Our IRD paper is image-friendly, provides optimal scanning and meets all federal guidelines for guaranteed Check 21 compliance. Our IRD paper is specifically designed to comply with the ANSI X9.100-140-2018 technical guidelines. Available in a number of layout options for both forward and return IRDs.

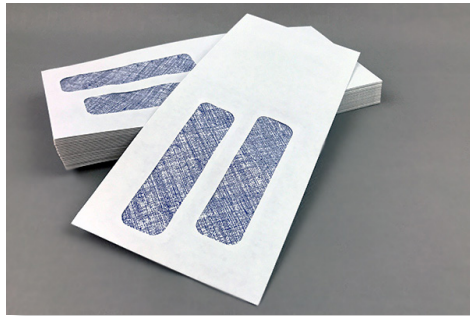

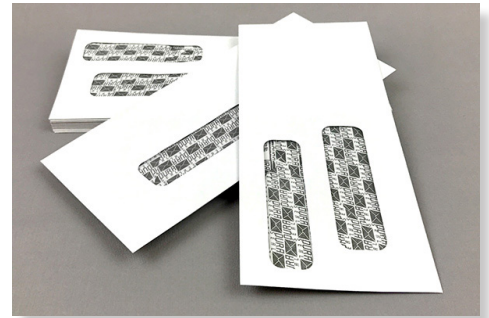

ENVELOPES

We offer secure, stylish or custom envelopes for all your mailing needs. Our envelopes are designed for optimum machine inserting and ease.

pecially designed for check security

DURASEAL Envelopes

Specially designed with check security in mind. Our high-security check envelopes protect your critical bank routing and account information with the use of a special inside security tint and unique window positioning.

Piracle Envelopes

Designed to match our Piracle checks and products. If you're ordering from our array of Piracle products, these are the envelopes for you. Piracle envelopes offer security and protection for all of your confidential documents and mailings.

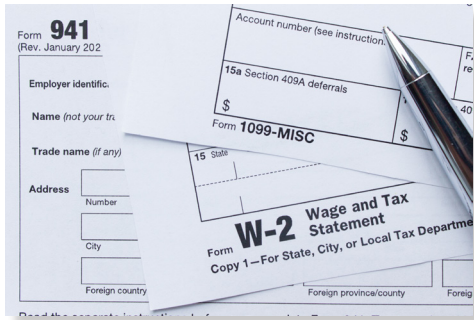

Sizes & options

#9 and #10 envelope sizes with single or double windows
Reverse flap options are available

BUSINESS TAX SOLUTIONS

Responsible for your business's taxes? We've got you covered with our tax solutions. We offer traditional paper tax forms, e-file solutions, tax software and even a full concierge service where we print, mail and file your taxes.

Traditional Paper Tax Forms

We have a complete line of blank and pre-printed forms that are customizable to your state and local requirements. ULTRASEAL pressure seal tax forms are also available as a fast, easy and secure alternative to folding and stuffing envelopes.

E-file Tax Filing Solution

Prepare, file and deliver your forms, any time from anywhere. Our e-file solution gives you the power to make tax season a breeze in three simple steps.

Full Service Tax Solution

For a custom end-to-end tax solution that is uniquely tailored to your business, consider our service bureau. You provide the data file and we will do the rest. Business taxes don't get any easier than that!

Tax Software Solutions

RELYCO offers a variety of tax software solutions for your tax printing and filing needs for W-2, 1099 and ACA tax forms.

CUSTOM SOLUTIONS

Don't see a stock product that fits your needs? We love problem-solving and we enjoy a challenge, so please reach out to us for help.

one size doesn't
always fit all

What we offer

Our custom solutions can be built to fulfill any business printing need. First, our solution specialists will take the time to understand your current workflow and the challenges you face. Then we'll build a custom product or solution, tailored to your exact needs.

How can RELYCO help you?

Options for customization

- Special perforations
- Different colors
- Non-standard sheet sizes
- Roll sizes
- Specific printer-compatible coatings
