How is REVLAR Select used?

What can you make with it?

- Menus
- Shelf strips / sliders
- Retail tags
- Signage / posters / notices
- Maps
- Parking tickets / passes
- Training / field manuals
- ID tags / cards
- Guides / manuals
- Blueprints

Specifications

- Opacity: 95%
- Brightness: 94%
- Melting point: 450+ Fahrenheit
- Solid core polyester matte white material
- Classified as a #1 plastic
Can be recycled as a plastic, not as a paper. Check with your local recycling services for your options.

Features & benefits

- **PrintArmor Coat™** - our proprietary toner anchoring and static reducing top coating
- **Super durable material** - perfect for frequent handling, wet surroundings or extreme conditions
- **Cost savings** - an industrial coating keeps the cost down
- **Standard sizes** - keep it simple with two basic thicknesses and three sizes available
- **Long-lasting solution** - more affordable, faster and more durable than laminated materials
- **Washable** - run it under water, wipe it down with a wet cloth or use a mild cleanser
- **Versatile material** - options to score, punch or die-cut
- **Laser printer compatible** - tested to run on all brand name laser printers
Also compatible with offset and flexo printers. (Inkjet and HP Indigo compatible REVLAR is available upon request.)
