

AssurePay

CORPORATE EDITION

Streamlined Check Printing Software for Businesses

- ▶ Increase Internal Security & Fraud Prevention
- ▶ Eliminate Costly Preprinted Stock
- ▶ No Switching Between Multiple Accounts
- ▶ Digitally Sign Checks

Create the Check File

A batch file is created and loaded into AssurePay.

Review & Approve

Checks are electronically reviewed, authorized and signed per bank compliance requirements.

Securely Print

Checks are securely printed incorporating all signatures, logos and security features.

Pay & Report

Positive Pay files are exported to your specified data folder to be sent to the bank.

THE BENEFITS

Multiple Accounts, Plus Unlimited Files & Styles

Eliminate preprinted stock and handle multiple accounts all on the same blank check stock. Completely scalable, you can add new accounts as needed, and import files and check styles are limitless.

Encrypted Digital Signatures

Encrypted signatures are digitally applied in line with your bank mandated signing requirements to ensure all checks have the appropriate signatures before being issued.

Authorized User Access

Secure controls give you power to provide authorized user access and restrict feature access where needed.

External Authorization Control

Control the printing process with the use of biometrics (fingerprint) controls, passwords or remote authorization from an external location.

Automated Process

Optional automation of the entire AssurePay process, including Import, Print, Archive and Report. Users rarely need to touch the software.

PERFECT FOR ONE-OFFS OR LARGE QUANTITIES

- Payroll
- Accounts Payable
- Claim Checks
- Wealth Management
- Direct Deposit Slips
- EOBs
