

# Waterproof Paper Solutions for Beverage Distribution

In beverage distribution, paper rarely stays dry for long. Condensation, refrigeration, warehouse handling and delivery routes quickly wear down traditional signage and labels—leading to damaged barcodes, constant replacement and materials that simply can't keep up.

RELYCO durable paper solutions are designed for the realities of beverage operations, helping distributors maintain durable, readable materials throughout the supply chain.

## REVLAR® for Cold and Wet Environments

From cooler signage and shelf talkers to keg tags and promotional displays, REVLAR synthetic paper is built to hold up where ordinary paper fails. It resists tearing, curling and moisture damage in refrigerated and high-use environments.

REVLAR prints in-house on standard laser printers, allowing distributors to quickly produce durable signage without outsourcing or lamination.

### Use it for:

- Cooler and cold-case signage
- Shelf talkers and promotions
- Bottle neckers and keg tags
- Warehouse labels and pallet tags
- Point-of-sale signage

### Why Beverage Distributors like it:

- Waterproof and tear-proof
- No lamination required
- Prints in-house on standard laser printers

## Less Replacing. Less Laminating. Less Downtime.

### RELYCO helps beverage distributors reduce:

- Water-damaged signage
- Damaged or unreadable barcodes
- Labels peeling in coolers
- Constant laminating and reprinting

Whether you're managing warehouse operations, refrigerated storage, menus or retail displays, RELYCO durable paper solutions are built to perform where traditional paper falls short.

“We use RELYCO’s REVLAR Premium synthetic paper for our beer cooler planograms. We needed something durable that could handle the cold, wet environment and still be easy to read and use. We’ve been ordering since 2015 because it’s a good product and easy to order online.”

—Albert Gonzales, Andrews Distributing

### Waterproof Labels That Stay Readable

Cold storage and high-moisture environments quickly cause standard labels to peel, smear or fail. REVLAR waterproof labels help keep pricing, barcodes and inventory information readable throughout distribution and retail handling.

Available with removable or permanent adhesives for refrigerated applications where durability matters.

#### Ideal for:

- Case labels
- Cooler labels
- Keg labels
- Inventory tracking
- Promotional labeling
- Barcode applications

### Carbonless Forms That Keep Deliveries Moving

From warehouse operations to retail deliveries, beverage distribution depends on fast, organized paperwork. RELYCO carbonless forms help teams maintain clean records across delivery routes, inventory management and customer accounts.

Designed for dependable in-house printing and daily operational use, they help simplify documentation while keeping drivers, warehouses and retail locations aligned.

#### Common applications include:

- Delivery tickets
- Proof-of-delivery forms
- Inventory sheets
- Pick tickets
- Invoices and credit memos
- Route documentation

### WE’D LOVE TO WORK WITH YOU

Our product experts will work with you to understand your challenges, your timeline, the product you’re looking for and how you plan to use it. We’ll take that information and work with you to develop the right solution, whether it’s one of our stock products or a custom job. **Call anytime and talk to real people. When you trust us with your business, we’ll work hard to exceed your expectations.**
