

Integrated Label Forms

*Merge information, instructions and labels **all on one sheet** with Integrated Label Forms. They are a great way to **simplify and streamline** any packing, shipping, inventory, invoicing and logistics documentation process.*

How can you use Integrated Label Forms?

Combine any of the following:

- Instructions
- Pick tickets
- Shipping labels
- Return shipping labels
- Barcodes / QR codes
- Order / purchase details

Create any of these forms:

- Packing forms
- Shipping forms
- Inventory forms
- Invoices

Features & benefits

- Streamline your process - save time by eliminating the need for multiple forms
- Reduce environmental impact - consolidate multiple sheets into one
- Reduce the chance of human error & increase efficiency - everything is in one place
- Increased convenience for the recipient - a return process becomes simple & easy
- Laser printer compatible

Specifications

- Standard size: 8.5" x 11"
- 18 white stock options with variable options for:
 - Placement of label
 - Perforations
 - Size of label
 - Label quantity

Custom

Custom options are available. Contact us for variations on sheet size, special perforations or different colors. You can also incorporate integrated labels into a carbonless form or pressure seal form.
