RELYCO Approved to Provide Durable REVLAR Material for New Jersey Temporary License Plates

Dover, NH, July 23, 2024 – RELYCO is thrilled to announce that its innovative REVLAR material has been approved by the New Jersey Motor Vehicle Commission for use in the state's temporary license plates. This milestone follows recent legislation ([P.L.2023, c.285](#)) introducing new security measures and procedures for temporary license plates in New Jersey to prevent forgery or duplication.

RELYCO's REVLAR material is designed to meet and exceed these rigorous new standards. As trusted security experts since 1989, RELYCO brings unparalleled expertise to the table, with a history in producing checks and secure documents enhanced with features like holograms, watermarks, thermochromic inks and microtext to thwart tampering, alteration and counterfeiting.

REVLAR is also incredibly durable, waterproof and built to withstand the harshest weather conditions, ensuring New Jersey's temporary plates remain intact and legible no matter what.

“We are immensely proud to offer a solution that aligns perfectly with the New Jersey Motor Vehicle Commission's stringent new requirements,” said Bruce Steinberg, CEO at RELYCO. “Our REVLAR material delivers unmatched durability and security, providing auto dealers and vehicle owners with the confidence they need in the quality and reliability of their temporary plates.”

With over a decade of experience managing state, third-party agents and auto dealer temporary plate programs, RELYCO is more than just a supplier – they are a trusted partner. Offering secured custom eCommerce sites, robust distribution management software and custom plate creation, RELYCO ensures compliance, quality and peace of mind for all stakeholders.

For over 10 years, millions of RELYCO's trusted temporary license plates have been issued across the United States and Canada.
