

RELYCO Launches New Wide Format Product Line

The company expands their specialty media offerings to include inkjet imaging compatible wide format rolls

Dover, NH, July 28, 2021 – RELYCO®, a top provider of business printing solutions, is excited to announce the expansion of its specialty media offerings to include wide format rolls for inkjet imaging. RELYCO’s new wide format product line consists of a range of substrates in various thicknesses and widths.

Inkjet media extends RELYCO’s product line by providing existing customers with a broader portfolio of products, while attracting new customers with high impact imaging solutions. Wide format printing is used for an endless variety of printing projects, such as large format artwork, signage, displays, banners, roll-ups, art reproduction, CAD printing and more.

RELYCO’s product expansion is made possible through a distribution partnership with Sihl, a leading manufacturer of digital print media. With Sihl’s excellent industry reputation and broad range of high-quality print media, RELYCO has selected a partner that perfectly aligns with their philosophy to be “wildly reliable” in service to their customers.

According to Bruce Steinberg, CEO of RELYCO, “We decided to partner with Sihl because of their materials and coatings expertise, combined with their commitment to delivering high performing quality products. Our aligned values ensure that our customers will derive the value of these superior products and services. Our customers come to us to find the perfect solutions, and this expansion allows us to offer even more.”
