MICR Pro Printers

Protected by HP Wolf Security, the world's most secure printers including the basics for protecting your network for desktop check printing.

MICR Printers

Precisely position the MICR line and print secure checks that meet banking standards. Includes 16 added check printing features above HP's security.

MICR Secure Printers

Mid-level protection has 22 check printing security features including encryption/decryption and is backed by HP technology to prevent and repair malicious intrusion through the printer.

MICR Secure Ex Printers

Highest level of MICR printer available, has 25 added security features including paper tray locks, a physical 3-position keylock to prevent unauthorized check printing, and all HP security features to make this the world's most secure MICR printer.
