# No Software.
No Forms.
No Hassle.

File and Deliver 1099 & W-2 Forms Online

Filing your taxes doesn't have to be a stressful ordeal. E-file and do it all online — no need for paper forms, software or even envelopes and stamps:

Benefits of E-filing

✓ **Comply with New E-Filing Thresholds:** The Taxpayer First Act of 2019, enacted July 1, 2019, authorized Treasury and the IRS to issue regulations that reduce the 250-return requirement for 2020 tax-year and later returns. Until regulations are issued the number remains at 250.

✓ **Greater Accuracy:** E-File has built-in validations to help catch the majority of user errors before the return is submitted to minimize errors.

✓ **Convenience:** Enter your form data online and we print and mail the forms to your recipients, and e-file the form data with the IRS and/or SSA.

✓ **Enhanced Security:** E-File protects your data using the strongest encryption program available. Data is then transmitted to our high-security, specially certified print-and-mail facility.

✓ **Proof of Receipt:** Email notifications for each completed step, acknowledgement and confirmation that your return was received and accepted in near real-time.

Complete Your E-Filing in 3 Easy Steps!

1. SIGN UP:
Go to the website to enter your filings.

2. ENTER DATA:
Use our easy-upload wizard to import an Excel sheet or transfer data from QuickBooks or Xero.

3. CHECKOUT AND RELAX:
Completed forms will be filed directly to the IRS and SSA, and we print and mail recipient copies. Plus, payer and recipient information is saved for future filings (up to four years).
